ALLEGED BOOTLEGGERS ARRESTED

Charged with violating the liquor laws four negroes, Dennis Leer, Frank Mussinon, James Lemon and Dennis Warren, were arrested Wednesday by Patrolman George W. Judy, and placed in the Paris jail.

The charge was a nominal one to hold them on, as they were suspected of being implicated in the theft of packages of wet goods from the office of the American Express Company, at the Louisville & Nashville passenger station in this city. During the holidays when there was a rush to get the original packages of liquor through to their destinations, the express office was entered at different intervals, and the packages stolen. In each instance the stolen packages contained a dozen quarts of liquor. Ten cases of the goods also disappeared. In a search for the parties who had pilfered the wet goods Patrolman Judy found the place where the cases of liquor had been opened and their contents abstracted. The goods stolen was valued at between \$250 and \$300. Suspicion pointed to Leer, and after the men had been placed under arrest, Leer admitted that he was one of the crowd that had been doing the work. The men will be arraigned in the County Court next Tuesday and will be given a hearing before County Judge George Batterton.

CENTENARY MEETING AT THE METHODIST CHURCH.

One of the most important religious meetings in the history of the Paris church was the one held Wednesday in the interest of the Centenary Movement of the Methodists in America. The year 1919 marks the one hundredth anniversary of the beginning of missionary work by the American Methodist church. The event was celebrated by a great forward movement in missions.

A program of addresses was given. Among the distinguished speakers of the day were Rev. W. V. Cooper, of Danville, Centenary Conference Secretary, Dr. J. A. Baylor, of Louisville, one of the Secretaries of the Church Extension Fund, Rev. O. B. Crockett, formerly of Paris, now located at Shelbyville; Dr. H. T. Turner, pastor of the church at Danville, Mrs. Edward Lambkin, of Warsaw, and others. Among the local speakers were Mr. Dennis V. Snapp, who spoke on the subject, "The Sunday School and The Centenary," and Rev. G. R. Combs, pastor of the church, who took for his theme, "The Pastor and The Centenary."

THE TOBACCO MARKETS.

At a meeting of the Bourbon County Tobacco Board of Trade the following officers were elected to serve during the season of 1919-20: President—J. M. Sturgeon, of the American Tobacco Co.; secretary and treasurer—Jeff T. Denton; Sales Committee—Edward Burke, Dan W. Peed and Mr. Sandy, representing the R. J. Reynolds Tobacco Co.

At the same meeting, which was held in the offices of the Paris sales warehouse of the Bourbon Tobacco Warehouse Co., the following executive committee was selected—Chas. C. Clarke, of the Independent Tobacco Warehouse Co., John T. Collins, of the Bourbon Tobacco Warehouse Co., S. Kenney Nichols, representing the Liggett & Myers Tobacco Co., Jas. Glasgow, of the J. P. Taylor Tobacco Co., and B. R. Leach, of Tuck & Co.

It has been officially announced by Mr. Charles C. Clarke, president of the New Independent Tobacco Warehouse Co., that as soon as the 1919 sales season has come to a close the Company will begin the erection of a large new building, to be known as the Independent Tobacco Warehouse No. 2. The proposed structure will be 140 feet facing on Main street and will extend a depth of 280 feet to the right-of-way of the Frankfort & Cincinnati railway. The company has just closed a deal for the purchase of the property south of the present warehouse, belonging to Mrs. Ollie Hedges and Mrs. Nippert. These houses will be razed to make way for the new warehouse.

The sales of tobacco at the Bourbon Tobacco Warehouse Co.'s house Wednesday went another step farther toward smashing records for prices of the weed. With the marked improvement in quality it seems that the prices are going higher, and the demand well taken care of by the handlers.

The market opened at the Paris house where the sale had been blocked the day before and it was not long until there was plenty doing. The highest basket at this house registered eighty-six cents, and the crop average reached the figure of \$70.01. A crop lot of 2,390 pounds belonging to Burris & See went under the hammer at those figures. When the sale finished at the Paris house it was followed by the sale at the Bourbon house. The total sales at the two houses was 303,355 pounds, for a total of \$122,640.85, and average of \$40.42. Some of the best crop averages follow:

Burris & See, 2,390 pounds, average \$70.01.

Caywood & Pence, 8,200 pounds, average \$44.50.

Determan & Rankin, 4,170 pounds, average \$51.94.

Jones & Butler, 5,565 pounds, average \$45.

Caywood & Fletcher, 9,685 pounds, average \$44.90.

Clay & McKenna, 3,115 pounds, average \$37.80.

The unfinished sale at the Independent house for Monday was finished on Tuesday, when a total of 206,980 pounds brought a total money value of \$82,680.43, a floor average of \$39.94.

The Bourbon Tobacco Warehouse Co.'s sale yesterday was another "corker" in the point of number of pounds sold, money value, and high crop averages. A total of 276,940 pounds of tobacco was sold for a money value of \$119,493.41, a floor average of \$43.14. The highest average of the day's sale was a crop of Isgrigg & Jones, comprising 2,705 pounds, which brought an average of \$70.02. Another high average was a crop of 2,670 pounds consigned by Brennan & Kissick, which brought an average of \$67.65. Some of the crop averages follow:

PLAYFUL STRUGGLES FOR REVOLVER MAY CAUSE DEATH

As the result of a "playful" struggle for the possession of a thirty-eight caliber revolver at their home in Ruckerville, about eleven o'clock Sunday night, Buss Cantrill, colored, a butcher in the employ of L. H. Muldinger, was perhaps fatally shot when the weapon, in the hands of his wife, was discharged.

According to the story told by Cantrill's wife, they were playing with the revolver, which neither supposed was loaded. They had been pointing and snapping the weapon at each other, when Mrs. Cantrill, wrestling the gun from her husband, pointed it at him and pulled the trigger. The weapon was discharged, the bullet striking Cantrill in the center of the forehead and passing entirely through. He fell to the floor unconscious, while his wife, horrified at the consequences of the playful struggle, gave the alarm, to which neighbors responded. Medical aid was summoned, and the wounded man given attention. Mrs. Cantrill was not arrested. She claimed the shooting to have been purely accidental.

Coleman Renick, son of Mr. and Mrs. B. M. Renick, of Paris, who has been stationed in the service at Camp Knox, has received his final discharge papers, and returned to this city.

Mrs. Robert Hughes, of Paris, received a post card from her son, Private Robert Hughes, announcing his safe arrival on January 12, at New York from overseas. Hughes was a member of the 309th Trench Mortar Battery in the 84th Division, which landed in New York from France. He will return to Paris in a few days.

Cornelius (Buddie) James left yesterday for New London, Conn., to resume his station on the U. S. S. Remick, on which he has been the past year. James has been spending a seven-days' furlough in Paris, with his mother, Mrs. Mollie James, and other relatives. An interesting letter concerning "Buddie" written by one of his shipmates, is published in this issue of THE NEWS.

Lieutenant and Mrs. Richard G. Huffman, have returned to Millersburg, from Post Field, at Fort Sill, Oklahoma, where Lieut. Huffman has been detained in the Field Artillery branch of the service. He was given his final discharge papers a few days ago. Mrs. Huffman was formerly Miss Louise Myall, a daughter of the late Mr. and Mrs. Edward Myall, of Paris.

Edwin Taylor, a Paris boy who is stationed on the U. S. S. Texas, arrived here Wednesday on a furlough of fourteen days. He is a son of Mrs. Pearl M. Taylor, of Ferguson street. Another "salt" who has arrived for a furlough visit is W. O. Pennington, who is stationed on the U. S. S. Oklahoma. These ships are now in harbor, having participated in the big naval review held at New York some days ago.

"Sailorman" Ed. C. Doty, who shook the dust of the city of Paris from off his shoes many months ago, and enlisted in Uncle Sam's big navy, is back home on a furlough of fifteen days, which he will put in in enjoying life in the "old home town." Doty is stationed on the U. S. S. Navy, which is one of the class ships in Uncle Sam's service. Doty has been across the big waters several times, and has acquired all the gaits and virtues of the true "salty sailor."

Smith, of near North Middletown. He is a young man of exceptional ability, and was an earnest student at college, receiving his A. B. degree at Centre College at Danville, and the M. A. degree at Princeton University, where he graduated. He had made a fine record at the Training Camp, and would have received a commission soon.

First Lieutenant Thos. M. Marks, of Base Hospital Unit No. 40, who is in Lexington on a sick leave, said that it was his opinion that the unit would return to this country to be mustered out of the service within three months.

Base Hospital Unit No. 40, composed entirely of men from Lexington, Paris and Central Kentucky, occupies a hospital building at Sarsbury Court, Hants, England, and this is the only hospital which was bought by the United States government on English soil.

Because of the fact that this site is owned by the government, this unit will be the last to return to this country. Other hospitals rented by the United States in England were closed on or before December 15 by an order of the War Department and patients which could not be sent home were transferred to Hospital 40.

Independent of German Potash

Close upon the heels of the particulars concerning the achievements of American chemists in putting our own national dyes "over the top," comes frequent official assurances that "the United States does not need German potash." Secretary of the Interior, Franklin K. Lane, says that when the war started, this country having had nearly a quarter of a million tons of potash from Germany each year, found herself sud-

denly cut off from this important fertilizer material. American scientists got busy and it was not long before potash was being obtained from the brine lakes of California, Nebraska and other States; from kelp, and from the seaweed of the Pacific Coast, and from various minerals. The scarcity of potash has boosted the price; and this new industry has been profitable.

Strangely enough, in the very hour when so much is being looked for from the Government, and at the very moment when so many nimble-minded political gentlemen are forecasting the Utopia that is to come with a socialistic form of government, we find that the two great needs of American industry, namely dyes and potash, have recorded their industrial achievement by the route of private initiative. Just as the great transcontinental railroads were built by American capitalists, to meet the needs of a rapidly expanding population, and just as electric power and waterways, and ten thousand first-class miracles in industry and business were brought about by the initiative of human beings seeking fame and fortune, so has the great problem with reference to potash been solved by American genius and enterprise.

A Blind Man Could Tell!

We wonder how many of our readers have noticed the difference

between the man who has been married but a short time and one who has been married several years. You can always tell a young husband from an old one. When a man has been married a few months, you will generally see him working in the garden or fixing up about the house and while he works he whistles, or sings, or occasionally looks up toward the window to see if anyone is watching him. A year later he is still working in the garden, but the smile has been exchanged for a frown and he occasionally looks up toward the house wondering why in thunder breakfast is not ready. Another year rolls by and his looks would sour milk, but he is still at work, stopping occasionally to kick the dog or throw a brick at the cat. The next year we find him sitting on the porch smoking a pipe while his wife does the digging in the garden. Now just watch our young men, as one by one they are caught in Cupid's net and see if this rule does not work out the problem correctly.

LETTERS FROM BOURBON COUNTY SOLDIERS AND SAILORS

Mrs. Mollie James, of this city, received the following letter Wednesday from George D. Boyette, of Tampa, Fla., who was a shipmate of her son, Cornelius (Buddie) James, on the transport Covington, which was torpedoed by a German submarine:

"U. S. S. Wainwright, Boston, Mass., Jan. 12.
"Dear Mrs. James: No doubt you will be surprised to hear from me and I guess you are wondering who I am. Well, I am a friend of your son, Cornelius. We have been together ever since we have been in the navy until the U. S. S. Covington was torpedoed and sunk by the Germans. Then he was transferred to the U. S. S. Remlik, and I went to the U. S. S. Wainwright, which is one of our destroyers. The Remlik, which is the ship your son is on, is a converted yacht. He left Brest, France, on Dec. 6, 1918, and we left on Dec. 21, all homeward-bound.

"James, or 'Jimmie,' as I called him, gave me your address, so that if I lost track of him, I could write to you and get his address. I think that he went to New York, but I don't know his address, so please send it to me, will you? I think the world of 'Jimmie' and he rather likes me, too. It seems funny that two fellows should like each other so much, but we have been together ever since we joined the navy. He was in my gun crew, and I can say with a clear conscience that he was the fastest and best gun-pointer on any of Uncle Sam's transports. He was the pick of the Covington's crew because we all felt safe when he took his station at the gun. I was gun captain of the crew that he was in, and I know just what I am talking about.

"Now, Mrs. James, I would like for you to have this letter printed in the most popular paper in Paris, so that your people can see what kind of worthy men we have in the service. I would appreciate it very much if you would have this signed with my name, and send 'Jimmie' and me a copy of the paper. If he is in New York I will go by and see him on my way home, as I will get a fourteen-days' furlough on the 24th of January. I am in Boston, Mass., now. We expect to go to Cuba in about a month or so. Please send me 'Jimmie's' address. I will close by wishing you the best of health and enjoyment.

"Very Sincerely,
"GEORGE D. BOYETTE.
"P. S.—My home is in Tampa, Florida."

The Times, published at Corbin, Ky., prints an interesting story regarding James Everman, son of Mrs. J. A. Gilkey, of Paris, who is in the U. S. Navy, stationed on the battleship Texas. Young Everman has just returned to his ship, after spending his furlough in visiting relatives in Paris and North Middletown. The Times says:

"James H. Everman, member of the battleship Texas, is visiting the families of his uncles, S. H. Kash and R. G. Bishop. The great experiences of young Everman in the recent world war would make an interesting book.

"He was present at the surrender of the German High Seas Fleet on the 21st day of November at May Island, near the Firth of Forth, Scotland. He is the only one known to the writer from this part of the State of Kentucky who was present on that memorable occasion.

"The Battleship Texas is a sister ship to the great Battleship New York, and is one of the five greatest of the American fleet of warships that compose the Sixth battle squadron of the British Grand Fleet. The Texas, as is known to those who are acquainted with the United States Navy, is the most efficient vessel of its kind in the world and is the best armored and has the great distinction of having the finest gunners to man their guns of any ship on earth, and one of these was young Everman.

"The day of the surrender and its scenes when the great German fleet had to sail out before the invincible, unconquerable and incomparable Grand Fleet, composed of the English and American dreadnaughts, their thousands of mine destroyers, their great aerial fleet, attached to the naval fleet, their mine sweepers and dirigibles, accompanied by the innumerable swarms of submarines and all other death-dealing machines in the hands of the American and English Grand Fleet, was a scene that no words can picture and only those who were so fortunate as to be present could fully realize and have opportunity to appreciate.

"So many, so varied were the different phases of the surrender, which has no equal in all of the history of the world and can never have another, that anyone beginning to tell of its effects, influence and bearings upon the present and future of the peoples of this earth becomes bewildered in attempting a description of it.

"One could picture on the faces of the vanquished foe, as that once great German fleet, with unlimbered guns, at rest and flags lowered, came steaming slowly between the lines formed for several miles by the dreadnaughts and other great vessels that had been prepared for the Grand Fleet to enable them to vanquish any enemy they with bands playing the national airs, amid the thundering shouts of Yanks and English, unexpectably happy because of a victory without a parallel in all recorded time, makes that day memorable not only to those who took part in that hour, but likewise to all who now are and will be benefited by its results in the years to follow.

"The German navy carried on one vessel more than two thousand per-

sons who had come of their own volition to give up, and as they anticipated, to get into some great feast, that they supposed might be spread for the prisoners of the German fleet, but were all taken back to Germany without having received a morsel of food.

"Young Everman was with his ship when it acted as one of the convoys for the President from England to Brest, France, a few weeks ago, and witnessed all of the great demonstrations given the Chief Magistrate of our nation.

"He had the rare opportunity of being with his ship in many parts of the world during the last eighteen months, including Russia, Norway and Sweden, Holland, England, Scotland, Ireland, Wales and France, besides many other countries.

"Mr. Everman will return to his post of duty early next week and will go with his ship to Southern waters around South America until spring, when he anticipates being sent with the fleet around the world.

"He has greatly enjoyed meeting his many friends in Corbin, where he spent about three years previous to going into the war as a clerk in different places in the round-house in the employ of the L. & N. R. R.

"His knowledge of the great naval forces of the Allies is truly interesting to those who enjoy the power of our country among the other nations of the earth."

Mrs. Della Ramsey, a well-known colored woman of this city, has received a letter from her nephew, Humes Burnside, who formerly resided in Paris, and is now a member of the American Expeditionary Forces in France. Writing from Paris, France, Burnside's letter reads as follows:

"American Military Hospital, No. 1, Paris, France.

"My Dear Aunt—I take great pleasure in writing to you, because I haven't had the opportunity of doing so before. I have been in the war, have gone over the top, and have been wounded, though only slightly. The doctors took twelve stitches to close my wound, and at this writing I am getting along just fine. I want to come back just as soon as possible, as indeed, do all the others I have heard talk about God's country.

"The hospital I am in is a very large one, and occupies about four big city squares. I have had some good times and also some terrible ones. What I have seen would make a book if I could write it, but I will try to tell some of them when I come back. Well, I hope everybody, including yourself, had a merry Christmas and that they will have a cheerful New Year. I haven't seen anybody from good old home since I left Chateau-Thierry from our ammunition dump. Those Germans have some good ammunition. We have fifteen or twenty dumps of German ammunition over here. We are getting along fine and I have made a good soldier out of myself. I have been in every little place in France, I think. I have never been sick since I came to France across the ocean, but I did get very sick on the ship coming over. I got sick from the fourteen days' ride. I have been on a Red Cross Military Hospital boat. Some class to that ship, too, I'll tell you that. Believe me, I will be at home soon, I hope, and will have some nice clothes and some money. I have seen enough of the world and of battles to last me for a long while.

"Sincerely, Your Nephew,
"HUMES BURNSIDE."

Carl Mitchell, of Paris, who was recently in for a visit to relatives, and who returned a few days ago to his ship, the South Carolina, stationed at Norfolk, Va., writes THE NEWS as follows:

"U. S. S. South Carolina, January 12, 1919.
"Dear NEWS:—Well, as I am back on board the ship and breathing the salty air once more, and wringing the salt out of my socks, I feel like one of Uncle Sam's real 'gobs' once more. Now that the war is over, or at least the armistice has been signed, we are allowed to write a little more than formerly.

"We are now in the Norfolk Navy Yard, and I want to tell you that this town of Norfolk, Va., has them all beat when it comes to the high cost of living. I went into a restaurant and ordered a slice of pumpkin pie. It was only twenty cents for a small piece, and the pumpkin looked as if it had been painted on with a brush. You don't see anything like that in the good old Bluegrass, do you? You can have all the Eastern towns you want, but give me good old Paris all the time. Just let me gaze on the waters of Stoner Creek and do my sailing in a row boat.

"I think we are doomed to go across the big pond and bring back the lucky 'doughboys,' for they are the only ones who are getting discharged now, and I would call it some lucky to get mine. They say some horses are lucky, but I don't think so, for I have both pockets full of them, and they have given me no luck so far.

"Have you heard of Ed Doty or any of the other scouts yet? I suppose they feel real S-A-L-T-Y now, as they have been across the pond and been over here some time. Well, I have about run out of material, so will close for the present. Give my regards to all the boys and with my best regards to all THE NEWS force and yourself, I am

COLORED MAN FOUND DEAD IN WOODS.

Den Boatright, a well-known col-
ored man, residing in Griffith's
woods, was found dead yesterday
morning by his wife, who had gone
in search of him.

Boatright had taken his wheel-
barrow and an axe and had gone
into the woods where he had been
engaged in cutting stove wood for
his home. Not returning for a long
time, his wife went in search of him,
and found his dead body at the foot
of a stump, from which he had evi-
dently fallen in his death throes.
Coroner Rudolph Davis was sum-
moned, and after hearing the testimony
of Mrs. Boatright, pronounced the
man's death due to heart trouble.
About a year ago Boatright sustain-
ed a stroke of paralysis, which af-
fected his left arm and side, and
left him almost speechless.

PIMPLY? WELL, DON'T BE!

People Notice It. Drive Them Off with Dr. Edwards' Olive Tablets

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Dr. Edwards' Olive Tablets, the successful substitute for calomel; there's never any sickness or pain after taking them. Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil; you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints, and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look. 10c and 25c per box. All druggists.

NOTICE TO EGG DEALERS.

To licensed Poultry and Egg Dealers of Bourbon County:

"By order of the United States Federal Food Administration for Kentucky, it is now considered at this time unnecessary to candle eggs so far as it pertains to the rule for the saving of food. Therefore, that rule is no longer in force.

"The department suggests that all large dealers continue the candling of eggs for their own profit and for the general good. It cautions all parties that the purchase of eggs unfit for food by any licensed dealer is really a wasteful and unfair thing, and the selling of same is dishonest and un-American. As soon as the egg season comes on again, the Department hopes that the licensees will voluntarily take up the candling.

GOVERNMENT GOING INTO COMMISSION BUSINESS?

A communication has been received by Postmaster J. Walter Payne, of this city, from the Fourth Assistant Postmaster-General at Washington, asking him to send the Department every Tuesday a list of prices on eggs, poultry, sausages, hams, canned goods, preserves, jellies, dressed fowls and all kinds of country produce.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts through the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

I have told many of my friends of the good I received through using this medicine, and all who have used it speak of it in the highest terms." Obtained everywhere.

THE COURIER-JOURNAL MAKES PLANS FOR PEACE CONFERENCE.

An out of the ordinary example of newspaper enterprise is being shown by the Louisville Courier-Journal in the display advertising announcement appearing elsewhere in this issue. The purpose of this advertisement is to acquaint the people of Kentucky and the Louisville territory with the foreign news service of the paper.

With the signing of the armistice in November the Courier-Journal began extensive preparations for covering the Peace Conference to follow by sending Arthur B. Krock, Editorial Manager of the paper, to Paris, from which city he is now sending daily cables exclusively to the Courier-Journal. Already the Courier-Journal had arranged with the New York Times for its complete foreign cable and wireless service by special wire from New York each night, in addition to receiving the full leased wire and cable service, day and night of the Associated Press.

No other daily newspaper in this territory has shown such enterprise and aggressiveness in the effort to give its readers complete, accurate and up-to-the-minute reports of the great history-making Paris Peace Conference, which during the next three months is expected to determine the price, Germany, Austria, Bulgaria and Turkey must pay for the more than four years of frightfulness and destruction brought on the world.

The Courier-Journal, in the advertisement referred to, announces a special three months' trial subscription during the Peace Conference period, giving every opportunity for the people of this territory to become fully informed upon the deliberations of the envoys in Paris, when they begin to fix the terms the Allies shall demand of their conquered foes.

Floyd H. Rankin, grocer, Lileston Avenue and Lucas street, says: "I have used Doan's Kidney Pills off and on for years and have been greatly benefited by them. At times I have suffered severely with kidney complaint. My back often pained me and was lame most all the time. The kidney secretions were too frequent in passage and greatly annoyed me. When I have been this way, I have always found that a box of Doan's Kidney Pills has never failed to cure me of the attack in short order."

ATTORNEY-GENERAL GREGORY RESIGNS CABINET POSITION

Thomas Watt Gregory, Attorney General of the United States since 1914, has resigned because of "pecuniary responsibilities," and return to the practice of law. President Wilson has agreed to his retirement next March 4.

Mr. Gregory's letter of resignation, dated January 9, and the President's reply, cabled from Paris the next day, were made public at the White House. The Attorney General's letter disclosed that he had long considered retiring from office and had discussed the matter with the President before Mr. Wilson went abroad.

Mr. Gregory's successor has not yet been appointed and there has been no official intimation as to who will be. In speculation the names of Frank L. Polk, counsellor of the State Department and Acting Secretary while Mr. Lansing is in Europe, and Senator James Hamilton Lewis, of Illinois, were mentioned.

It is a hard matter to make a child understand that at the present price and scarcity of soft coal he shouldn't eat more than one scuttle per day.

The American Red Cross sent five tons of food to Stenay to provide for the American and French prisoners crossing the border there.

YOU MEN WHO PAY THE FAMILY SHOE BILLS

Tramping 18 miles a day, Mr. H. M. Foreman, a mail carrier of Allentown, Pa., found that shoes with ordinary soles last about one month. But he says a pair of Neolin-soled shoes gave him more than nine months of service, in which time he walked over 4,000 miles.

His experience shows how you may save shoe money by providing your family with Neolin-soled shoes, which give extra wear where other shoes wear out quickly.

You can get Neolin-soled shoes in any type of shoe you want. Prices are about the same as for shoes that give only ordinary wear, sometimes they are even less. If your dealer hasn't the style you want, he can get it for you quickly. Remember, Neolin Soles are created by science to be what soles should be. They are available everywhere for re-soles as well as on new shoes. They are made by The Goodyear Tire & Rubber Company, Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear any other heels.

RESOLUTIONS IN MEMORY OF
CAPT. REUBEN HUTCH-
CRAFT.

Captain Reuben Brent Hutchcraft, Jr., the son of Dorcas A. and R. B. Hutchcraft, was born in Paris, Kentucky, on December 15, 1886. received his early training in the local schools and at a tender age gave promise of those splendid traits of mind and heart which later in life so distinguished him. In 1903 he entered what was then old Kentucky University. He was graduated therefrom in 1907 with honors, receiving the degree of Bachelor of Arts. He became a post-graduate student in Harvard University the same year, specializing in political economy, history and government. The following year he began the study of law in the Harvard Law School. He graduated in the summer of 1911 with the degree of Bachelor of Law. While at the University he was actively interested in Massachusetts politics and the public questions of the day, and though merely a school boy, earned for himself a reputation as a political thinker, speaker and debater that few men at any age have equalled. His Harvard career throughout was distinguished. In his senior year he became an associate editor of the Harvard Law Review. The articles contributed to this magazine by Captain Hutchcraft are keen legal studies, and promise a splendid scholarship for their author.

After graduation Captain Hutchcraft began the practice of law in Paris, Kentucky, in the fall of 1911. He was an able and resourceful practitioner. Though a young lawyer, he became interested in much important litigation. Mr. Hutchcraft was attorney for the contestants in the Local Option Election Contest case of 1914 and very successfully in all courts upheld the legality of the election. Although a first-class, technical lawyer, Captain Hutchcraft was professionally interested mainly in problems of State, and political and governmental questions. And for their solution he was equipped with a superbly trained scholarship and a wonderfully acute, logical and analytical mind. His opportunity came soon. In the fall of 1913 he was nominated and elected without opposition to the office of Representative of Bourbon County. Again in 1915 he was elected to the same office. He attended two sessions of the General Assembly of Kentucky, in 1914 and 1916. He was a member at the Special Session of 1917. As a Representative he was interested in and responsible for much of the legislation of that period. His Legislative record throughout was a brilliant one. He was a constructive statesman. Recognizing his ability as an expert on the subject of taxation, the Governor of Kentucky in 1916 appointed Captain Hutchcraft one of the four House members of the Kentucky Tax Commission. It was the duty of this Commission to write a new Tax Law for the Commonwealth. How well it succeeded and how well Captain Hutchcraft succeeded, may be inferred from the fact that the law as drafted by the Commission was adopted without material change by the Legislature at the special session of 1917.

In 1915 Captain Hutchcraft was appointed to the Chair of Law in the Law Department of the University of Kentucky at Lexington. He held this position two years and resigned in order to answer his country's bugle call. In the early spring of 1917 he entered the first Officers' Training Camp at Fort Benjamin Harrison, and upon completing the course, was commissioned a First Lieutenant. In the early fall of the same year he was ordered to foreign duty. He saw active service from the start as a First Lieutenant, afterwards Captain, in the 166th U. S. Infantry, a regiment of the famous Rainbow Division. He went into battle with America's first combat troops, and was actively engaged until his death. He was killed in action November 6, 1918, near Sedan, on his country's furthest advanced battle line. He passed on, almost at the supreme moment of victory, just as the weary guns were about to grow silent, and when healing peace was already on her way earthwards. He sleeps his peaceful, soldier sleep near where he fell, "somewhere in France," in a spot that is and shall ever be a part of Kentucky.

Such, in brief, are the facts in the life of Captain Hutchcraft—a life of service crowned with a hero's death. He is survived by his mother and father and two sisters, who in his death have suffered the most grievous loss of an only son and brother.

Therefore, Be It Resolved: That in the death of Captain Hutchcraft his bereaved family has lost a loving and dutiful son and a tender and affectionate brother; the County of Bourbon, one of her most distinguished citizens; the Bourbon and Kentucky Bar, an able and brilliant lawyer; the Commonwealth, a most competent and efficient Legislator; the Cause of Legal Education in Kentucky, an eloquent advocate; a host of friends, a warm-hearted, generous companion; and the Nation at large, a brave and gallant soldier.

Be It Further Resolved: That these Resolutions be spread upon the records of this Association and of the Bourbon Circuit Court; that a copy of same be sent to each newspaper in Bourbon County, Kentucky, for publication therein; and that a copy of same be sent to each newspaper family.

E. M. DICKSON,
DENIS DUNDON,
DAVID D. CLINE,

Committee Bourbon Bar Association.

Children Under 12 Not Admitted.IN THE SERVICE
OF THEIR COUNTRY

(Continued from Page 1)
The War Department will issue a blanket order in the next few days releasing all married men in Class 1-A who have persons dependent upon them, if it heeds the urgent request made by Representative W. J. Fields, the ranking member of the Commission on Military Affairs. It has promised to look into the matter carefully and to comply with the Kentuckian's appeal if the suggestion meets with the approval of the general staff.

In prosecution of the work of securing a complete roster of the boys from Bourbon county who have been and are now in the service in the different branches of the army and the navy, Mrs. John T. Collins, to whom the work has been delegated, reports a total so far of 621 names. Anyone knowing of a soldier or sailor from this county whose name has not been sent in should refer it to Mrs. Collins, who will send the necessary blank to be filled out with information for the purpose.

W. O. Pennington, salty sailor on the Oklahoma, came in Sunday for a fourteen-days' furlough visit to friends and relatives in this city. Pennington came to Paris from Norfolk, Va., where his ship is at present stationed. He says that while in New York he heard that the boys in France are all homesick, and that no one over there dares to play "Home, Sweet Home," or "My Old Kentucky Home." The winter over there is rainy and with no sunny days the boys are longing for a return to the good old U. S. A. Pennington and Ed. Doty, who is with the Nevada, were stationed on patrol duty in France, Irish and Scotch waters, their ships being later assigned to conveying transports over seas. He said that when the other "gobs" in their division learned that these ships were to do transport work they became very envious and many of them tried to secure transfers, but that the commanders were very well satisfied with their crews.

BOARD OF HEALTH.

Paris, Ky., Jan. 14, 1919.
Believing that a former order of the City Board of Health strongly urging the importance of inoculation with the Rosenow-Mayo serum as the safest known method for protection against influenza and pneumonia, has in a large measure been disregarded, the percentage of inoculated children in the various rooms of the City School being about six, and in further view of the fact that the Board finds many cases, though mild, which might have been prevented, respectfully calls attention to the following communication:

Bowling Green, Ky., Jan. 9, 1919.
THE STATE BOARD OF HEALTH.
THE ROSENOW-MAYO VACCINE
Dr. A. H. Keller, City Health Officer, Paris, Ky.

As requested, I am sending you the Rosenow-Mayo Vaccine for preventive inoculation against influenza, and especially against the types of pneumonia which have caused most of the deaths during this epidemic. Dr. Rosenow says "this vaccine is prepared from pneumococci of the various types and allied green-producing streptococci, from hemolytic streptococci, staphylococci and influenza bacilli, as isolated from the sputa and lungs of cases during the present epidemic of influenza and pneumonia."

Dr. Rosenow advises that individuals be given three inoculations, one week apart, in order to get the highest and most enduring immunity. There is usually no reaction from the inoculation except in persons about to come down with influenza, and even then the disease seems to run a shorter and milder course and complicating pneumonia seldom occurs.

As a treatment during an attack of influenza the dose indicated on the label is to be given daily for three days and, although some reaction may follow, many physicians report excellent results in relieving the influenza and in preventing pneumonia.

As to the preventive value of the inoculation, the records in the office of the Surgeon General of the Army, dealing with a division of 27,000 troops in the early stage of the epidemic, show that of 12,000 men who received the inoculation 8 developed pneumonia, with no deaths; of 15,000 not inoculated, 800 developed pneumonia, with 120 deaths. The Equitable Life Insurance Company reports its use in 20,000 of its policy holders and their families, and the Mayo clinic reports its use in 20,000 cases, each without a death. At the Homestead Steel Works, near Pittsburgh, of 7,651 employees of 1,687 who were not inoculated, 558 developed pneumonia and 42 died; of 4,720 who were inoculated, 66 developed the disease, with no deaths. Many similar experiences might be given if space permitted. Not a single case of harm from its use has been reported.

With the approval of the Surgeon General, the entire army has been inoculated. This Board after the fullest investigation endorses its use by every person in Kentucky who is not certain that he or she has recently had influenza. It has already distributed 250,000 doses, and will gladly send it free to any physician who will keep a record of its use in each case, on blanks furnished for that purpose and his promise to return them to Bowling Green for tabulation and study, and for the use of Dr. Rosenow, 60 days after the last dose is given.

Dr. South, here, has entire charge of the distribution of the vaccine and it will prevent delay and confusion if

all requests for it by letter or wire, are addressed to her. Also, on account of the scarcity of glassware, please mail all vials and containers back as soon as they are emptied.

Very respectfully,
J. S. McCORMICK,
Secretary.
C. G. DAUGHERTY,
J. M. WILLIAMS,
JO VARDEN,
Board of Health.
A. H. KELLER, City Health Officer.

MAYSVILLE TO-DAY.

The boys' and girls' basketball teams of the Paris High School will go to Maysville to-day, where they will play a double-header with the teams of the Maysville High School. The members of the team are making no rash promises, but they propose to be full of "pep" and bring back the honors.
